

*On the occasion of the reintroduction of the Flu Vaccine Act*

# Meet the Experts

## Special Briefing on Influenza Vaccine Research

Tuesday, February 26<sup>th</sup>

11:30am to 1:00pm

Room 124, Dirksen Senate Office Building

### Program

- 11:30am**            **Welcome**  
Senator Edward J. Markey (D-Mass)  
Representative Rosa DeLauro (D-CT)
- 11:35am**            **Opening remarks**  
Scientific program chairs  
David Baltimore, Caltech, Pasadena  
Simon Wain-Hobson, Institut Pasteur, Paris
- Presentations**
- 11:40pm**            **Anthony Fauci**  
NIAID, Bethesda, MD  
Chasing influenza: The need for a universal influenza vaccine
- 11:48pm**            **Florian Krammer**  
Icahn School of Medicine, Mt. Sinai, New York  
Universal influenza virus vaccines: Catching a moving target
- 11:56pm**            **Ian Wilson**  
Scripps Research Institute, San Diego  
Structure-assisted design of universal influenza vaccines
- 12:04pm**            **Scott Hensley**  
University of Pennsylvania, Philadelphia  
Improving influenza vaccines through basic science
- 12:12pm**            **Jesse Bloom**  
Fred Hutch/University of Washington, Seattle  
Mapping viral evolution to guide vaccine design
- 12:20pm**            **Gary Nabel**  
Sanofi, Cambridge, Mass.  
All for one and one for all to fight the flu - an industry perspective
- 12:28pm**            **Kathrin Jansen**  
Pfizer, New York, NY  
A path towards improved influenza vaccines using RNA
- 12:36pm**            **Russell Bassler**  
Seqirus, Melbourne, Australia  
Improving influenza vaccines through innovation in manufacturing
- 12:45pm – 1:00pm**    **15-minute panel discussion**
